

Clear and Intuitive Front and Back office

Every solution from the OneCore family offers a tried and tested yet innovative approach to all aspects of your financial service enterprising. From elegant and intuitive user interface with **OneCore** or **OneCore Business Portal** to unification of all calculations under one tool with **OneCore Smart Calculation**, which eliminates errors caused by using multiple different systems.

However, **OneCore offers much more than just a solution**. It gives you a head start thanks to innovation and a supplier who understands you.
